

KIRKLEES METROPOLITAN COUNCIL INVESTMENT & REGENERATION SERVICE

DEVELOPMENT MANAGEMENT

Town and Country Planning Act 1990 (as amended) – SECTION 70

DELEGATED DECISION TO DETERMINE PLANNING APPLICATIONS

Reference No:	2025/62/91170/E
Site Address:	35, Uplands Drive, Mirfield, WF14 9LZ
Description:	Erection of single storey side and rear extensions with porch to front elevation and associated works
Recommending Officer:	Jennifer Booth

DECISION – CONDITIONAL FULL PERMISSION

I hereby authorise the approval of this application for the reasons set out in the officer's report and recommendation annexed below in respect of the above matter.

Emma Thompson

AUTHORISED OFFICER

Date: 14-Jul-2025

OFFICER REPORT

Site Description

35 Uplands Drive is a brick built, semi-detached dwelling with an open landscaped area to the front, drive to the side, single storey garage attached to the side and conservatory to the rear. The property has an enclosed garden to the rear.

The property is located on a cul de sac with properties of a similar age although there are variances in terms of style.

Description of Proposal

The applicant is seeking permission for a porch to the front with a single storey extension to the side and rear.

The porch would project 1.4m from the front wall of the dwelling with a width of 2.4m. The roof form would be pitched.

The side extension would project 2.5m from the side wall, lying flush with the front of the dwelling. The roof form would be lean to. As the extension continues beyond the rear wall it would project 3.6m from the original rear wall, wrapping around and across the rear of the dwelling with a lean to roof form which would hip on the corner.

The walls would be constructed using brick with tiles for the roof covering.

Relevant Planning History

None

History of negotiations

Kirklees Development Management Charter together with the National Planning Policy Framework and the DMPO 2024 encourages negotiation/engagement between Local Planning Authorities and agents/applicants, this is only within the scope of the application under consideration. The initially submitted plans raised concerns in terms of the projection to the rear. Amended plans were sought and received which reduced the projection in line with the neighbour's extension. As the amendment reduced the scale, the amended plans have not been advertised.

Representations

The application was advertised by site notice, which expired on 30/05/2025

As a result of the above publicity, no representations have been received.

Consultation Responses

None

Policy

Section 38(6) of the Planning and Compulsory Purchase Act 2004 requires that planning applications are determined in accordance with the Development Plan unless material considerations indicate otherwise. The statutory Development Plan for Kirklees is the Local Plan (adopted 27th February 2019).

The site is UNALLOCATED on the Kirklees Local Plan Proposals Map

On 12th November 2019, the Council adopted a target for achieving 'net zero' carbon emissions by 2038, with an accompanying carbon budget set by the Tyndall Centre for Climate Change Research. National Planning Policy includes a requirement to promote carbon reduction and enhance resilience to climate change through the planning system and these principles have been incorporated into the formulation of Local Plan policies. The Local Plan predates the declaration of a climate emergency and the net zero carbon target; however, it includes a series of policies which are used to assess the suitability of planning applications in the context of climate change. When determining planning applications, the Council will use the relevant Local Plan policies and guidance documents to embed the climate change agenda.

Kirklees Local Plan Policies

- **LP 1** – Achieving sustainable development
- **LP 2** – Place shaping
- **LP 22** – Parking
- **LP 24** - Design

Kirklees Council adopted supplementary planning guidance on house extensions on 29th June 2021 which now carries full weight in decision making. This guidance indicates how the Council will usually interpret its policies regarding such built development, although the general thrust of the advice is aligned with both the Kirklees Local Plan (KLP) and the National Planning Policy Framework (NPPF), requiring development to be considerate in terms of the character of the host property and the wider street scene. As such, it is anticipated that this SPD will assist with ensuring enhanced consistency in both approach and outcomes relating to house extensions.

The site is within Mirfield Neighbourhood Area. There is no made Neighbourhood Development Plan (NDP) within the Mirfield Neighbourhood Area at present. Furthermore there is no emerging NDP to be considered as a material consideration in assessment of this application. Further details on the progress of neighbourhood development plans in the district can be found at: <https://www.kirklees.gov.uk/beta/planning-policy/neighbourhood-planning.aspx>

However, the Mirfield Design Guide 2002 is still of relevance and requires development to be in keeping with the area.

National Policies and Guidance:

National planning policy and guidance is set out in National Policy Statements, primarily the National Planning Policy Framework (NPPF) published December 2024, and the Planning Practice Guidance Suite (PPGS) first launched 6th March 2014 together with Circulars, Ministerial Statements and associated technical guidance.

The NPPF constitutes guidance for local planning authorities and is a material consideration in determining applications.

- Chapter 12 – Achieving well-designed places
- Chapter 14 – Meeting the challenge of climate change, flooding and coastal change

Assessment

Principle of development:

The site is without notation on the Kirklees Local Plan (KLP). Policy LP1 of the KLP states that when considering development proposals, the Council will take a positive approach that reflects the presumption in favour of sustainable development contained in the NPPF. In terms of extending and making alterations to a property, Policy LP24 of the KLP is relevant, in conjunction with the House Extensions & Alterations SPD and Chapter 12 of the NPPF, regarding design. In this case, the principle of development is considered acceptable, and the proposal shall now be assessed against all other material planning considerations, including visual and residential amenity, as well as highway safety.

Impact on visual amenity:

Key Design Principle 1 of the House Extensions & Alterations SPD does state that extensions and alterations to residential properties should be in keeping with the appearance, scale, design and local character of the area and the street scene. Furthermore, Key Design Principle 2 of the House Extensions & Alterations SPD goes on to state that extensions should not dominate or be larger than the original house and should be in keeping with the existing building in terms of scale, materials and details.

As this proposal is for a side and rear extension, the following paragraphs of the House Extensions & Alterations SPD are of relevance. Paragraphs 5.15 & 5.17 of the House Extensions & Alterations SPD with regards to the side extension as they require the development proposed to be located and designed to minimise the impact on the character of the area, reflect the original building in terms of materials and detailing and ensure adequate

space is retained to provide a sense of space. Paragraphs 5.1, 5.2 & 5.6 of the House Extensions & Alterations SPD go into further specific detail regarding rear extensions requiring development to maintain the quality of the residential environment, respect the original house and use appropriate materials.

The property has an existing garage attached to the side and a single storey rear. The proposals would see both removed and a wraparound side and rear extension.

The proposed single-storey side extension would be flush with the front elevation of the dwelling and set in from the side boundary, thereby maintaining an appropriate sense of spacing around the property. The extension is modest in scale, with a limited width that ensures it remains clearly subservient to the host dwelling. While Paragraph 5.17 of the Kirklees House Extensions and Alterations SPD generally advises that side extensions should incorporate a setback from the front elevation to preserve the character of the original dwelling, a flush design is considered acceptable in this instance. This is due to the extension's subordinate scale and the presence of a comparable side extension on the opposite side of the street, which contributes positively to the established streetscape character. The proposed materials would match those of the existing dwelling, providing visual continuity and cohesion. Overall, the design is considered to be in keeping with the character of the area and would not appear incongruous within the street scene. As such, the proposal is considered to have an acceptable impact on visual amenity.

The proposed single-storey rear extension would project 3.6 metres from the rear elevation, aligning with the depth of the neighbouring extension. The use of matching materials would ensure a coherent and sympathetic appearance. The extension is modest in scale and design, and a reasonable level of rear amenity space would be retained. The development is considered suitable in terms of the character of the host property and the wider area and would not result in any harm to visual amenity.

Having taken the above into account, the proposals would not cause any significant harm to the visual amenity of either the host dwelling or the wider street scene, complying with Policy LP24 of the Kirklees Local Plan (a) in terms of the form, scale and layout and (c) as the extension would form a subservient addition to the property in keeping with the existing building, KDP 1 & 2 of the House Extensions & Alterations SPD and the aims of chapter 12 of the National Planning Policy Framework.

Impact on residential amenity:

Consideration in relation to the impact on the residential amenity of neighbouring occupants shall now be set out, taking into account policy LP24 c), which sets out that proposals should promote good design by, amongst other things, extensions minimising impact on residential amenity of future and neighbouring occupiers. The House Extensions & Alterations SPD goes

into further detail with respect to Key Design Principle 3 on privacy, Key Design Principle 5 on overshadowing/loss of light and Key Design Principle 6 on preventing overbearing impact.

Impact on 33 Uplands Drive

The host property has a slightly angled position relative to the adjacent dwelling. The proposed extension would be replacing the existing garage with a similar level of development and would not have a significantly increased impact in terms of overshadowing, overlooking or overbearing.

With regards to the impact on the adjacent 33 Uplands Drive, the scheme has been considered in terms of KDP3 – privacy, KDP5 – overshadowing and KDP 6 – overbearing impact of the House Extensions & Alterations SPD, policy LP24 of the KLP c) in term of minimising impact on neighbouring occupiers and advice within chapter 12 of the NPPF and the proposals are considered to be acceptable.

Impact on 37 Uplands Drive

The adjoining dwelling has their own single storey rear extension which would minimise the potential for the proposed extension to result in any overshadowing or overbearing. The windows in the rear elevation would look into the applicants own amenity space and as such there would be no loss of privacy.

With regards to the impact on the adjoining 37 Uplands Drive, the scheme has been considered in terms of KDP3 – privacy, KDP5 – overshadowing and KDP 6 – overbearing impact of the House Extensions & Alterations SPD, policy LP24 of the KLP c) in term of minimising impact on neighbouring occupiers and advice within chapter 12 of the NPPF and the proposals are considered to be acceptable.

Impact on 48 Uplands Drive

The property on the opposite side of the road occupies a position some 21m from the host property. The works proposed would not reduce the separation and as such, there would be no overlooking, overshadowing or overbearing.

With regards to the impact on the neighbouring 48 Uplands Drive, the scheme has been considered in terms of KDP3 – privacy, KDP5 – overshadowing and KDP 6 – overbearing impact of the House Extensions & Alterations SPD, policy LP24 of the KLP c) in term of minimising impact on neighbouring occupiers and advice within chapter 12 of the NPPF and the proposals are considered to be acceptable.

Impact on 14 Water Royd Avenue

The property to the rear occupies a position some 28m from the host property. The works proposed would not reduce the separation and as such, there would be no overlooking, overshadowing or overbearing.

With regards to the impact on the neighbouring 14 Water Royd Avenue, the scheme is considered to be acceptable in terms of KDP3 – privacy, KDP5 – overshadowing and KDP 6 – overbearing impact of the House Extensions & Alterations SPD, policy LP24 of the KLP c) in term of minimising impact on neighbouring occupiers and advice within chapter 12 of the NPPF and the proposals are considered to be acceptable.

Having considered the above factors, the proposals are not considered to result in any adverse impact upon the residential amenity of any surrounding neighbouring occupants, complying with Policy LP24 of the Kirklees Local Plan (b) in terms of the amenities of neighbouring properties, Key Design Principles 3, 5, 6 & 7 of the House Extensions & Alterations SPD and Chapter 12 of the National Planning Policy Framework.

Impact on highway safety:

The proposals will result in some intensification of the domestic use. However, the parking area to the front of the property would not be affected by the proposed extension and is considered to represent a sufficient provision. Bin storage for the dwelling would not be moved as part of the proposals. As such the scheme would not represent any additional harm in terms of highway safety and as such complies with Policy LP22 of the Kirklees Local Plan along with Key Design Principles 15 & 16 of the House Extensions & Alterations SPD.

Other matters:

Carbon Budget

The proposal is a small scale domestic development to an existing dwelling. As such, no special measures were required in terms of the planning application with regards to carbon emissions. However, there are controls in terms of Building Regulations which will need to be adhered to as part of the construction process which will require compliance with national standards.

There are no other matters for consideration.

Representations:

None

Negotiations:

None

Proposed conditions

Along with the standard timescale condition, which is a requirement of Section 91 of the Town and Country Planning Act 1990, it is considered appropriate to add the following conditions.

Accordance with the approved plans to ensure the development is carried out in line with the officer's assessment.

Matching materials to ensure that the extensions harmonise with the host property as using alternative materials would look out of place within the street scene.

Conclusion:

This application to erect a single storey extension to the side and rear of 35 Uplands Drive has been assessed against relevant policies in the development plan as listed in the policy section of the report, the House Extensions & Alterations SPD, the National Planning Policy Framework and other material considerations. Given the acceptable design and lack of harm in terms of visual and residential amenity, the proposals are considered to be acceptable.

The NPPF has introduced a presumption in favour of sustainable development. The policies set out in the NPPF taken as a whole constitute the Government's view of what sustainable development means in practice.

As set out above, this application has been assessed against relevant policies in the development plan and other material considerations. It is considered that the development would constitute sustainable development and is therefore recommended for approval.

Recommendation

Approve

Decision Authorisation - Delegated Powers

Application Number: 2025/91170

Officer Recommendation: Approve

Conditions and Reasons

1. The development hereby permitted shall be begun within three years of the date of this permission.

Reason: Pursuant to the requirements of Section 91 of the Town and Country Planning Act 1990.

2. The development hereby permitted shall be carried out in complete accordance with the plans and specifications schedule listed in this decision notice, except as may be specified in the conditions attached to this permission, which shall in all cases take precedence.

Reason: For the avoidance of doubt as to what is being permitted and so as to ensure the satisfactory appearance of the development on completion, and to accord with Policy LP24 of the Kirklees Local Plan, Key Design Principles of the House Extensions & Alterations SPD and the aims of the National Planning Policy Framework.

3. The external walls and roofing materials of the extension hereby approved shall in all respects match those used in the construction of the existing building.

Reason: In the interests of visual amenity and to accord with Policy LP24 of the Kirklees Local Plan, Key Design Principles of the House Extensions & Alterations SPD and the aims of chapter 12 of the National Planning Policy Framework.

NOTE: The granting of planning permission does not override any private legal rights or consents that may be required. It is the responsibility of the applicant / developer to ensure that all appropriate consents are in place prior to any development commencing; during the period of construction existing access for neighbouring properties is maintained; and no damage is caused to the access driveway or surrounding properties.

NOTE: To minimise noise disturbance at nearby premises it is generally recommended that activities relating to the erection, construction, alteration, repair or maintenance of buildings, structures or roads shall not take place outside the hours of:

07.30 and 18.30 hours, Mondays to Fridays

08.00 and 13.00hours, Saturdays

With no working Sundays or Public Holidays

In some cases, different site specific hours of operation may be appropriate. Under the Control of Pollution Act 1974, Section 60 Kirklees Environment and

Transportation Services can control noise from construction sites by serving a notice. This notice can specify the hours during which the works may be carried out.

Plans and specifications schedule: -

Plan Type	Reference	Web ID	Date Received
Location plan	(EX)002	1086905	28/04/2025
Existing plans	(EX)001	1086910	28/04/2025
Proposed plans	(20)001 a	1093042	20/06/2025

Pursuant to article 35 (2) of the Town and Country Planning (Development Management Procedure) Order 2015 and guidance in the National Planning Policy Framework, the Local Planning Authority have, where possible, made a pre-application advice service available, complied with the Kirklees Development Management Charter 2024 and otherwise actively engaged with the applicant in dealing with the application.

The initially submitted plans raised concerns in terms of the projection to the rear. Amended plans were sought and received which reduced the projection in line with the neighbour's extension. As the amendment reduced the scale, the amended plans have not been advertised.
