Hi Louise

Please may I submit my objections to this development?

- The proposed development would not be in character of the area.
- 31 units with four floors would be visibly overbearing
- There is no provision for parking. Many students have cars.
- Highway Safety -The road is very narrow and two cars cannot pass each other with ease.
- Highway Safety - Increased traffic flow at either end of Chapel Lane has the potential to cause problems

Best Wishes

Cllr Mus Khan
