Subject: ra 2025/91185 at location building at, Back Chapel Lane, Moldgreen, Huddersfield, HD5 9BG

I can see that the bat survey was conducted; and it was observed that no bats were using the building of concern.

Therefore, there are no further requirements on this and the original condition can be removed.

All other comments from the original review, provided back in 23.06.25, are still relevant.

Many thanks,
Katie
