<p>This land is green belt and it is regularly farmed - it is prime agricultural land. It is a large field - the erection of a single dwelling would look completely out of character - further more so when it has another agricultural field along side it that it is also regularly farmed. This dwelling would have no other buildings around it or near it - it would affect the openness and character of this area. The application does not provide any justifiable reason for building in this green field - a single dwelling does not address the shortfall in Kirklees. I therefore request the refusal of this application as it is not appropriate development.</p>
