Address of the site or building:	Land off, Stocks Moor Road, Stocks Moor, Huddersfield, HD4 6XQ
Postcode:	

User comments

Type of comment: An objection	
Do you wish your comments to be published on the website anonymously?	No
I wish to object to the proposal as I have serious concerns about the reclassification of the field from green belt to grey belt. This is a field that is in constant use as farmland (similar to the surrounding fields). If a house was built it would change the openness of the surrounding countryside, and would then raise the question as to why this could not be done in all surrounding fields, significantly altering the surroundings. There is no obvious reason why this field should be treated any differently to the others in the locality. Regarding sustainable travel - this site has very limited options. The bus goes about every 2 hours throughout the day, and only in the direction of Huddersfield. The train station is a 10 minute walk away, with an hourly service. The train service is not reliable, and is hard to use routinely for journeys further afield such as to Leeds or Manchester due to the ongoing Transpennine Upgrade. This application should be refused as it is an inappropriate development in the green belt, and does not address the shortfall of housing in Kirklees.
