I am opposed to this application. The house would be located in a field in the green belt between Whitestones and Stocksmoor. There appears to be nothing that sets this particular piece of green belt land out from the other green belt land in Kirklees that would lead to a compelling case for development. The development would interfere with the buffer of green belt countryside between Whitestones and Stocksmoor. The land is also regularly farmed and has been so for many years. It is important to preserve this agricultural land and the countryside in the green belt, and I therefore ask you to please reject this speculative application.
