I am writing to object to this planning application. The land is farming land that is Green Belt and it is vacant, therefore I can not understand why planning permission would even be considered for this location. A small container has been placed in the field, but to the best of my knowledge, it has never been utilised in any way. Encouraging development in such a small village with limited amenities is not practical and is also damaging to the natural beauty which is what makes the village so special and is therefore not sustainable. This has already been investigated and proven as not sustainable for a planning application in Stocksmoor which has been recently rejected. It also needs to be taken into consideration the fact that close relatives of the applicant are currently under review for destroying hedgerows alongside a lane which clearly demonstrates their lack of consideration for the environment, as well as disregard for following the appropriate regulations.
