| <p>I am writing to object to this planning application. The land is Green Belt and currently agricultural and vacant. I see no valid reason why planning permission should be granted for development on this site.</p> <p>A small container has been placed in the field, seemingly for the sole purpose of strengthening a future planning application. To my knowledge, it has never served any real use and has become an eyesore to the local community. Its presence appears to be a deliberate attempt to manipulate planning requirements, rather than reflect any genuine need.</p> <p>Allowing development in this small village, which has limited infrastructure and services, is not practical. It would cause unnecessary harm to the rural character and natural environment of the area.</p> <p>I would also like to raise serious concerns about the applicant's track record. They, or their close relatives, are currently under investigation for the unlawful destruction of hedgerows. This shows a clear disregard for environmental protections and planning rules, and raises doubt over whether future regulations would be respected if permission were granted.</p> |     |
