Hi Tree team

I hope you are all well.

I have just been to see this cherry blossom tree in Linthwaite.

Mickey Dixon is the homeowner

26 Causeway Cresant
Linthwaite
Huddersfield
Hd7 5NN

It is in a conservation area but is nearly dead.

Has not blossomed at all this year.

It has a cavity in the stem at about 5 foot from the ground

Then the bark at the base of the tree is peeling off.

It also has a lateral branch which has then become a new top to the tree.

This has a large wound where is branch's off from the main stem where is only has less than 50% holding wood left.

This is over the neighbours who have small children.

Please see attached pictures sorry if they are not the best the sun was really low.

In my opinion the tree is dangerous to the neighbours and them which is why i would like to place a 5 day notice against it.

Any questions please feel free to contact me.

Thank you

Best regards

Benjamin
