<p>I would like to express my concerns regarding the proposed extension of 34 Tolson street. I believe that this extension would result in significant traffic and parking difficulties for the residents of Tolson Street.</p> <p>The residents of 34 Tolson street already have a history of disregarding the safety and convenience of others when parking their own vehicles. Despite having ample space for at least three vehicles on their drive they typically only park one and leave their van on the small cul-de-sac, making it challenging for other drivers to reverse out safely. Additionally, they have been observed parking in front of other peoples drives and blocking their access.</p> <p>Futhermore , I am concerned that an extension of 7 metres would encroach upon a substantial portion of the residents gardens, potentially causing additional problems for their neighbouring properties. This could result in the blocking of natural light and potentially make their properties less attractive to potential buyers.</p>
