To whom it may concerned,

I am writing to express my strong objection for the proposed rear extension of 34 Tolson Street's property. The street we live consists of cul de sac houses and each house has their own driveway. If this construction permitted there would be a congestion which has occurred many times before during the last couple of months. Number 34 Tolson street had their front part of their outdoor flooring done, large lorries used to park in front of ours and neighbouring houses the lorries unloaded rocks onto our lawn.

Further the said property also hosts large gatherings in their house with 40 to 50 people taking part, they play loud music while dancing on other residents driveways disturbing the peace of all the neighbours. These situations can worsen over time if the extension is permitted. In addition to this the property of no. 34 has many cars and vans that they park at the entrance of Tolson street daily blocking the other residents driveways.

We believe as residents of Tolson Street our right to live in peace, enter and exit our property without any hazards would be assured by the authorities. We strongly believe the above mentioned concerns will be taken into serious consideration to prevent any inconvenience and distress caused to the residents who live at Tolson Street.

Thank you.
Kind regards
