<p>On hearing about the expansion of Greenhead College 2025/91308, it appears that possibly 500 more students to be increased by.</p> <p>My objections are</p> <p>the :- amount of traffic that is already at a high level as living close to Greenhead College it is noticeably more busy, the roads and my road is increasingly difficult to park outside your house which makes it difficult to carry any goods and residents who may have disabilities would be in a very difficult position with students in cars that park where ever they want, also people who use the park at any time of day make the roads around busy and difficult to park also . If we had permit parking this would alleviate any difficulties.</p> <p>The roads as busy as they are and parked cars everywhere it is a danger to pedestrians to cross the roads as cars do not go slowly in this built up area .</p> <p>We have schools around this area and parents who drop off children also add to the congestion on the roads.</p> <p>The roads are also around the Greenhead Park area are becoming a rat run as Trinity Street, Westbourne Road are so busy and many a time standing traffic around Greenhead College and bottom park gates are normal , adding more potential cars with more students will make this even more of a hazard to this lovely residential community that is now being well looked after and residents making improvements to make this a better environment for all to live.</p> <p>This is a residential area and is becoming a rat run and car park .</p>
