The Entrance to this proposed development is a danger as its down a gradiant and on a bend The road is narrow and there is no footpath on the side of the proposed entrance . There is an a issue with vehicles coming down Gynn lane being over on the opposite side of the road as they try to avoid a large manhole cover which is sunken in the road ,This is a accident waiting to happen as more traffic is likeley to make things worse. The woodland at the proposed entrance is often seen with deer and the field which the houses are to be built on are also frequently visited by deer and other wildlife. The road around School drop off and pick up times is often double parked and very busy again an issue for pedestrians and vehicles
