The lane is already narrow with bends that people drive too fast round and the road is often busy with the level of use now. Adding at least another 100 more vehicles daily is going to have such a negative impact and cause danger to road users including pedestrians ans cyclists. The only way to make the road safe would be to start taking away from the woodland and rockery there, which are both protect. Which should stand for something and mean this development cannot go ahead.
