With regards an Engineering Mine works review in the last 12 months which concluded that the land was not fit for the purpose of housing development. These serious concerns appear to have been brushed aside, even ignored in the reports I have read on line. Will the council be liable if there is loss of life due to this irresponsible attitude, All Doctors, Dentists and Schools are all currently over subscribed.,this development proposal will only exacerbate this problem. There are already problems with flooding both at the top and bottom of Gynn Lane and the proposed development will only serve to create an even more serious issue. Is this a consequence that S106 contributions fuel this decision making process ahead of environmental requirements.
