My main concern is that possibly 100 additional cars could be coming out onto a narrow lane. Our lane can be used as a rat run morning and evening making it very dangerous. there is only a pavement on one side which is very uneven to walk on . The parking when the children come out of school from the high school is really bad. there are cars very badly parked down Gynn Lane and since the new road works down at the bottom of Gynn Lane the parked cars are backed up even further. Where the exit to the lane is proposed visibility, is restricted both ways on Gynn Lane. We have trouble getting on to the main road is it is and is going to cause more problems. Our lane is too narrow and dangerous for this amount of houses. Please rejected this proposal
