It has come to our notice that an application to build 50 houses on Gynn lane. We cannot believe that yet another green field site is being robbed from the village not only to the residents who will certainly feel the huge impact of another development but to the existing wildlife it will be a travesty. We have already witnessed what is happening to the wild life in particular the deer who are totally confused at the destruction of their habitat with them showing up scared and not knowing where to go. The village is already at beyond capacity with the building that has been approved but the infrastructure has not increased to accordingly. There are places that are more suitable to build on. This application is not one of them. With regard to the roads surrounding one can only imagine the carnage that could occur with the increased traffic. Please please consider a refusal. STOP taking our green fields....
