| The proposed development would create a significant amount of extra traffic on a road which is used by schoolchildren to access the playing field and which is already congested at peak times. 50 additional homes - a likely hundred cars - would be a dangerous addition to this section of the road, lying on a blind bend with the viaduct overhead.<br><br>It will adversely affect wildlife in the area - there are active badgers and bats in the nearby woodlands and this will impact their foraging grounds.<br><br>I understand the need to build homes for people, but this site is not suitable for 50 more homes. 5? Sure. 10? Maybe. 50 is simply too many for this road, and requires too much damage to the ecosystem and the character of the area. | |
