Type of comment: An objection	
Do you wish your comments to be published on the website anonymously?	No
I fully agree with all previous objections on this application. Extra risks of flooding within the area of the build, extra traffic on top of what can be a dangerous road network already, our environment and our wildlife most of all. It will be hugely detrimental to our environment, wildlife and all mature trees in the proposed build area. We have already lost substantial areas in Honley and people have seen the increase in wildlife appearing in more unusual areas, housing estates etc due to this already and also the number narrowly avoided on our roads. Our schools cannot take more influx of people and our village especially Gynn lane roads cannot have even more traffic pushed upon us. There is no need for more destruction of our beautiful village and it's environment when the village cannot begin to actually handle 50 homes worth of more people, vehicles, waste etc. Please reject this proposal and preserve the village I have lived in for all my life and it's wonderful proximity to the environment and nature itself. This is a must for all our children's future within this village.
