I strongly object to the planning application for the following reasons.
When exploratory ground works were carried out by Lythos. They disturbed ocherous mine waters which flooded neighboroung properties. My own property has a mine adit running underneath it and is also adjacent to a mine shaft situated on the proposed development site. Clearly there are properties within close proximity to the site that are at great risk to further flooding and damage.

Furthermore, I completely agree with the many comments regarding:-
1 The risk of further flooding to properties caused by the extra pressure put on ludhill dyke.

2. The increased risks of accidents caused by more vehicles on the lane, especially around the times of children bring dropped off and picked up from school.
