Type of comment: An objection	
Do you wish your comments to be published on the website anonymously?	Yes
I reiterate my previous objections. Regarding the new information provided by the developer, nothing has changed in respect of the safety, viability and environmental issues. Additionally, I do not see how they came up with just 5 extra high school pupils! Also what about nursery & primary children who would be taken probably by car to schools in the centre of Honley village starting and finishing later than the High School. Also during the rest of the day, there would be more deliveries by supermarkets, Evri, DPD, Amazon etc. So more traffic generated. Nothing is mentioned about the impact to local residents during construction of the access road and building of the actual houses with all the vehicles coming and going. The developer is also unwilling to provide any extra facilities for the wider community in respect of a pelican crossing on Station Road which would be a huge benefit on a very busy road at all times of day. Also maybe a children's playground included on the development for children living there and other Honley children.All they want to do is save money by also making the access road steeper than recommended by Highways. Good luck with that in the winter with ice and snow! In conclusion, I strongly feel this development should not go ahead.
