I have previously objected to, and signed a petition against this application. The revised and additional information does nothing to answer any of questions concerning this application. A new idea is to re-align Ludhill Dyke at the access to the site, but the stream at this point has land rising on either side so has no where else to sensibly go! The blockage of access to many houses on Gynn Lane/ Hall Ing Lane during the considerable earthworks required for proposed site entrance and the traffic problems of the heavy lorries getting to and from the site access in narrow Gynn Lane are not dealt with. This application in its current form is a total non starter, it is a sick joke.
