I have previously objected to this application in 2025 and submitted comments on my views regarding the negative impact of the scheme. I have also signed a petition in line with this as I believe there are a number of issues that remain as part of the revised plans.

I previously objected regarding traffic issues on Gynn Lane and the potential loss of trees and green space as a result. The updated plans seem to provide further aspect in respect of this. The biodiversity in the area will be significantly disturbed and traffic along Gynn Lane will need to be diverted for the works which will likely be lengthy. The road will have school children going to Honley High during this time and the amount of construction work and vehicles along here provide a further hazard.
