We live near the bottom of Gynn lane and strongly object to the proposal of 50 houses to be built higher up the road. It will cause problems with drainage and flooding lower down the lane, which is already a problem in times of heavy rain, it will put pressure on the lane which already has significant traffic and parking problems especially around high school pick up and drop off times. The village amenities are already under catering for the current population, school places and doctors surgery places are already full. Wildlife and trees will be destroyed or significantly disrupted. Gynn lane and the surrounding area is one of the quiet and ecologically important areas of honley, 50 houses and all the building disruption would forever alter habitats for important wildlife.
