Further to my original objections to this scheme which in spite of planning amendments still hold true. I wish to reiterate my concerns for the increased risk from additional traffic using Gynn Lane and up through Hall Ing Lane as an access route to Farnley Tyas and the M1/M62. It is a misnomer that traffic will proceed down to the A616 as a considerable amount of non resident vehicles already use Gynn Lane to bypass Station Road. A potential extra 100 vehicles utilising Gynn Lane into Hall Ing lane, where two vehicles cannot pass each other, will increase the risk of further accidents and collisions which all of the residents wish to avoid. This application should be rejected.
