As a resident further up the hill I fully object to this proposal. The location where access would be is already narrow and as this is a busy road the proposed development will cause further issues. At school drop offs and picks ups this road is already almost impossible to navigate without additional traffic added to the equation. Local amenities such as schools and GPs are already busy with no visible plans to improve these services to add capacity. The local wildlife would be affected I've lived here for 8 years and have seen frequent flooding at the bottom of the hill. Taking away trees and paving over fields will add more flooding down the road.
