The proposed and potential hazard to life to make it viable to proceed ie Gynn lane is an extremely busy road Increased by school traffic at certain Times of the day. If another potential 100 cars were to use gynn lane this could cause an health and safety nightmare particularly at peak times when the adjacent school opens and closes. There is a huge increase in pupils and parents leaving the school and also going back to the vast amount of cars parked on gynn lane to make there journey back home. Some of the cars even park on the narrow blind bend half way up gynn lane. The proposed site access is another Huge issue. If planning does get approval there will be a massive increase in heavy plant involved in site construction, which is another health and safety issue, this cannot be allowed due to the logistics of gynn lane and all the issues aforementioned.
