RE the above application
I'm my opinion the proposed development shouldn't have even progressed to this stage , the narrow access to the proposed site and the width of Gynn Lane itself at the entrance should be sufficient for the planning request to be denied, I am fully aware of the government's instructions to provide more housing but allowing this development to progress would be a complete miscarriage, the developer is only interested in building luxury housing of which there is no shortage of in this area ,and to state that providing some affordable housing would make the development unviable is laughable, I also note that the developer paid for traffic surveys and stated that no vehicles were found to be speeding which goes against everything I have witnessed over the years I have lived here ,also the logistics required and the number of heavy vehicles would make life intolerable for the residents and also create a safety issue , I would like to suggest that the planning committee visits the site so they can better see how ludicrous this planning application is.
