Having submitted a comprehensive objection to this development during the consultation period last year, and signed the petition, the latest submissions by, and on behalf of the developer, have failed to address the major concerns raised. The location of the proposed development means issues of major concern, eg Gynn Lane, and it's progression into Hall Ing being unsuitable for increase volume and weight of traffic, cannot be overcome. The revisions to the access road are not viable. Residents having to wheel their waste bins to the holding area!! The failing railway embankment and the presence of past mining activity will incur expense to the developer which make this development increasing unviable and, it has been suggested, questions whether affordable housing can be included. The issue of flood mitigation has not been satisfactorally addressed. Therefore all the points in my original objection are still valid.
