Park Drive is a road of homes/houses and some conversions to flats/appartments. There is no 'Business' directly used as a Business base to my knowledge. No 9 is proposed to be the first direct business premises. This is a conservation area facing Greenhead Park. As understood the building will provide the places for a number of individuals who have some living difficulties. These people will need persons to provide appropriate professional help for 24 hours.Cars and conversations will create noise. Additionally there will be a number of visitors and their vehicles. The space to the rear of the house is exposed and could generate plenty noise. The kitchen is close to the outside door. There is little privacy for both houses in the garden areas. The gap between No 9 and No 10 buildings is only 1.6 metres. In general the nature and feel of Park Drive will change for worse. Greenhead Park is a big welcome presence for Huddersfield. It doesn't need a change in the surrounds.
