Ref 2025/126

Historic mapping information – 402 Bradley Road, Huddersfield

The proposed rear extension encompasses the existing rear bay window projection. This could be seen as a side extension per the GPDO, however the bay window itself is a later addition and not part of the original dwellhouse.

As such the rear extension is a true rear extension.

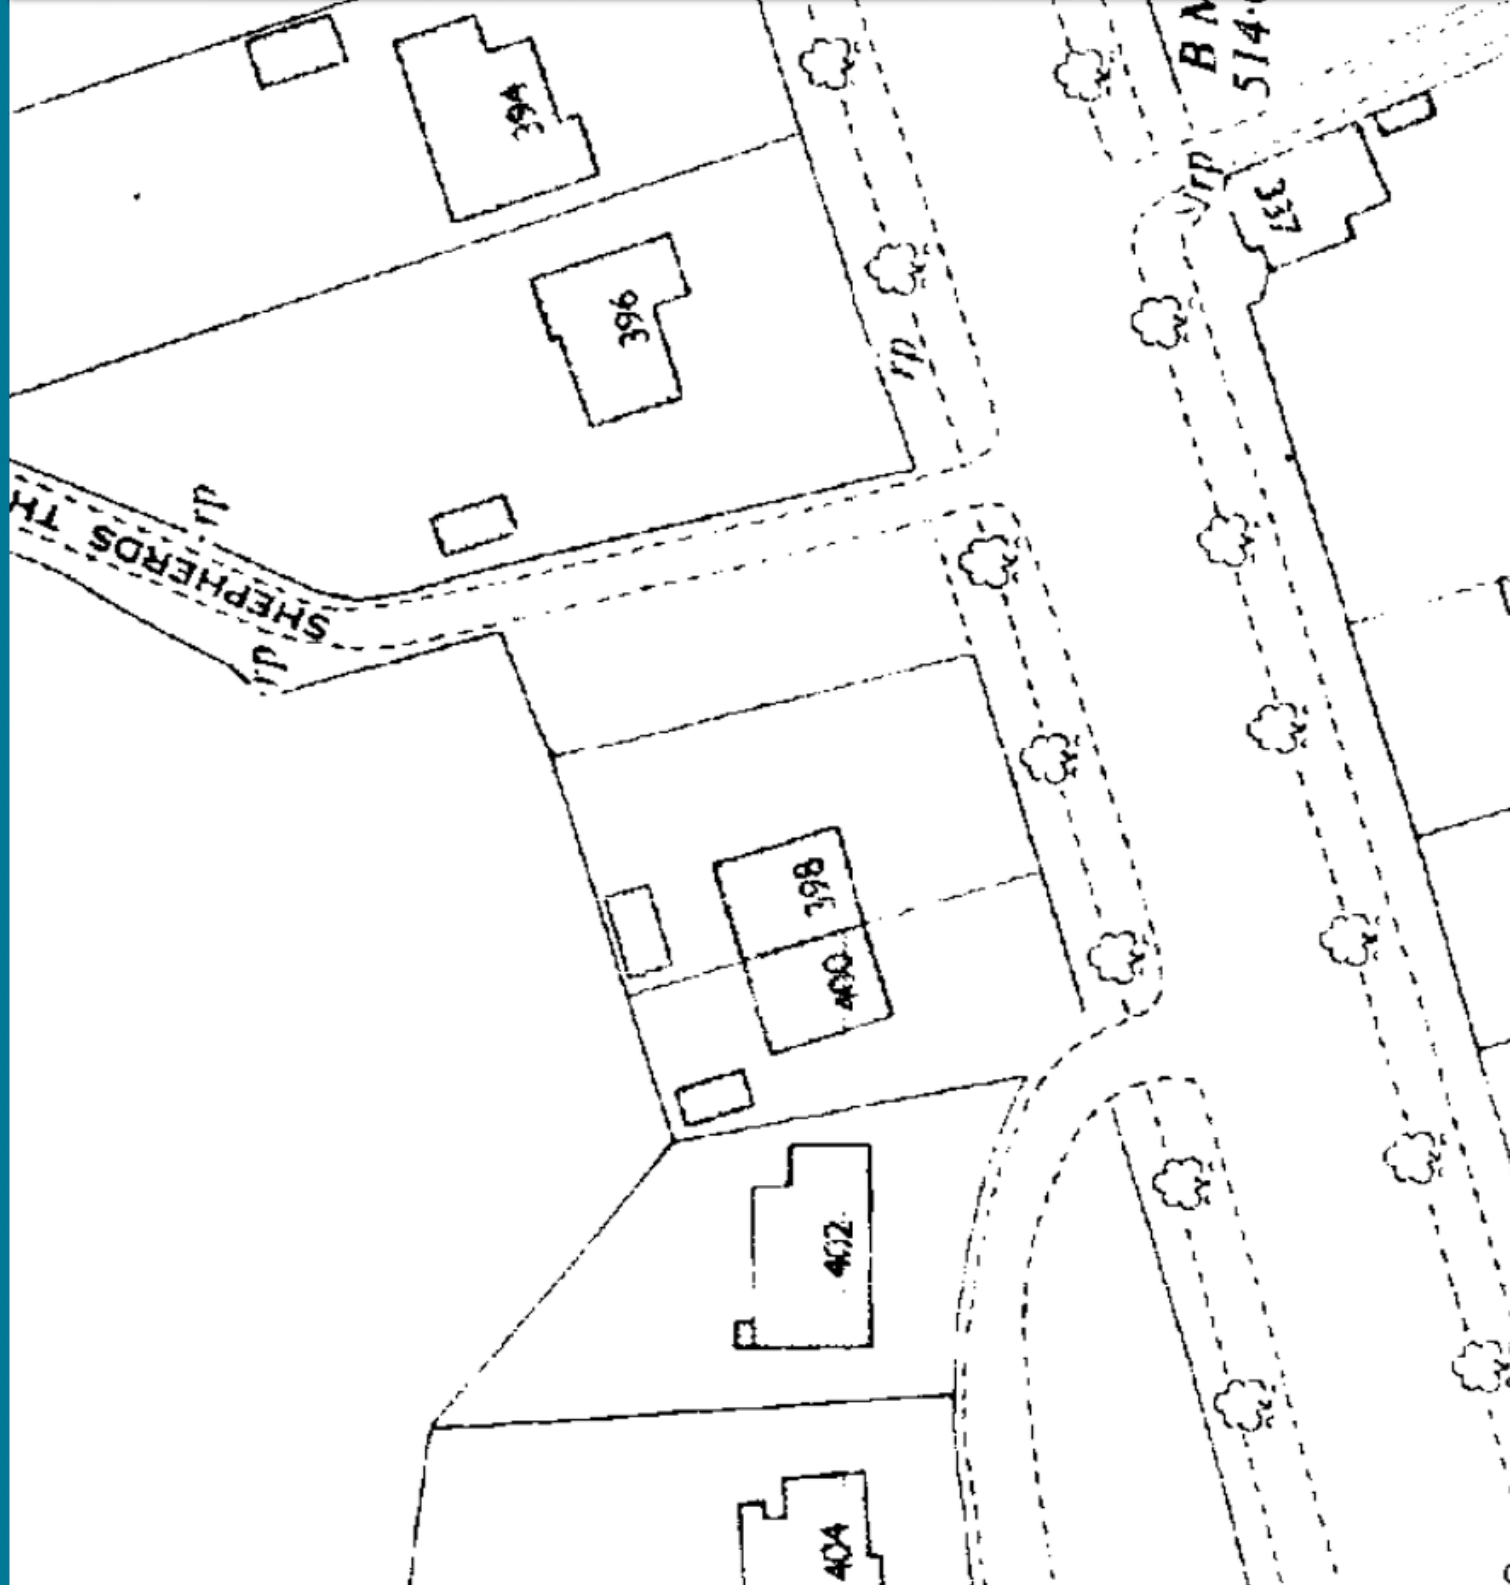

Please see an extract from the 1955 OS map overleaf from the Kirklees mapping system showing the original footprint of the house.

Should you require any further clarification please do not hesitate to contact me directly.
