User comments

Type of comment: An objection	
Do you wish your comments to be published on the website anonymously?	Yes
<p>This application should be rejected as there is no provision for parking. Carr Lane does not have enough parking for the housing that already exists. Since parking charges were introduced in the new street carpark and the leisure centre it is impossible to park near to home and the road leading up to the railway station and carr lane are often reduced to a single track, where are the construction vehicles going to be situated? Where are the skips and waste removal vehicles going to be situated? Has any sort of traffic survey been undertaken to better understand how busy this road actually is. There are no planning notices posted in the area to allow people to object</p>
