

Parking Support Plan

The planning application for the change of use of 488/450 from C3 dwelling house to C2 residential children's home. It outlines the proposed parking arrangements, ensuring compliance with local authority requirements and promoting efficient use of space. The management team will coordinate staff schedules to ensure that parking needs are met efficiently. There will be a company Vehicle which is used to transport the young person. This will be parked on the front of the property which has three parking bays which is the allocated parking space for the property. The property has two off street parking spaces of the side of the property on Bridge Street. The property has a safe and entry and exit and has no parking restrictions. The front of property has a clear access for emergency vehicles. The property can hold 3 vehicles at any one time. The property will be having a bike rack to allocate bicycles in the back garden for the staff/visitors. At the front of property, they will be a charging point for electric vehicle.
