| <p>Building houses on this land is just going to cause more traffic which is already bad enough the traffic on Leeds road is bad enough building more houses is going to cause even more traffic! Who wants to have a house built straight of there back garden it will stop the privacy of my garden people will be able to look straight in and also stop day light there is wild life that live in that field what's going to happen to them? That land is not big enough to build 50 houses it's just been greedy! What's going to happen when it's a building site and we want to spend time in out back gardens the will be dust and muck everywhere have some consideration for people that have lived there 12 years!</p> | |
