The current area to build has failed twice previously, on very good grounds, why would a third application be accepted.
No better plans have been provided, if anything they are worse for an every one around.

This is a lovely area, and we value privacy, minimal noise, wildlife, a close nit community feel of people looking out for each other. Most long standing home owners.

Building a huge amount of large properties will ruin character and charm of the houses.

We already have a major housing estate to the left of the land, and another past the traffic lights. The area will be over crowded and cause possible crime, noise, smells, huge traffic problems.
Local schools are already full, doctors/dentist can not manage, bin service is unpredictable, local waste site cannot manage.

Why build more housing in an over populated area already unable to cope.
