Please consider the following points The increased traffic from the new entry/exit onto Leeds road , in close proximity to Alma lane and Stubley farm road. A study has been carried out over a few days by an independent body who don't have to deal with traffic issues on a daily basis. The loss of so-called green belt sets a worrying president in this area. Where will this end? A loss of all the green fields on Leeds road to make way for future developments? What considerations did the developers make when selecting their entry point to proposed development? Surely a entry point from Popeley Road would have less impact.
