The increase in traffic generated by 51 dwellings, with potentially up to 100 additional vehicles, will significantly heighten risks for pedestrians, cyclists, and children in the area. Leeds Road and the surrounding streets are already hazardous, with multiple car accidents having occurred during the years I have lived here — including directly outside my property and the properties proposed for demolition. There has also been several serious accidents at both sets of traffic lights at each end of the Leeds road (6 Lanes End and White Lee). Of these accidents there has been multiple casualties, including the loss of life of children. Introducing a new access road in this location will intensify vehicle movements in an area already proven to have safety issues, placing local residents and children at further risk.
