<p>The increase in traffic generated by 51 dwellings, with potentially up to 100 additional vehicles, will significantly heighten risks for pedestrians, cyclists, and children in the area. Leeds Road and the surrounding streets (mine included) are already hazardous, with multiple car accidents having occurred during the years I have lived here — including directly outside my property, near the properties proposed for demolition, and at both sets of traffic lights at each end of Leeds road. These accidents and collisions have caused multiple injuries and casualties, including the death of children (both at 6 Lane Ends lights and White Lee/Shama crossroads). Introducing a new access road in this location, and the increase of traffic from the proposed dwellings, will intensify vehicle movements in an area already proven to have safety issues, placing local residents at further risk.</p>
