<p>The proposed development of 51 dwellings will significantly increase the volume of vehicles using the surrounding roads. Based on average car ownership, this could result in up to 100 additional vehicles accessing an area that is already densely populated and subject to existing congestion. The introduction of an access road in this location raises concerns regarding highway safety, potential bottlenecks, and increased parking pressures on nearby residential streets. The local road network is not designed to accommodate this additional level of traffic, creating risks to both motorists and pedestrians. I often have my driveway blocked due to double parking on busy roads, without additional traffic from the new proposed dwellings.</p>
