

I am writing to formally object to the proposed housing development. As a local resident, I have serious concerns about the impact this development will have on my health, my privacy, the environment, and local infrastructure.

1. Impact on Health:

I have breathing issues, and the construction noise, dust, and increased pollution will have a direct, detrimental effect on my health. Furthermore, I care for elderly animals, and the disturbance will cause them undue stress and harm.

2. Loss of Privacy:

The proposed development will severely reduce the privacy of my home and garden. The new properties will overlook my private spaces, and the intrusion into what is currently a quiet, secluded area is deeply troubling.

3. Environmental Damage:

The land earmarked for this development is an important green space that is home to various wildlife. Destroying this habitat will displace local species and disrupt the balance of the local ecosystem. Protecting these natural spaces is crucial, and I strongly believe this development should not come at the cost of environmental destruction.

4. Increased Traffic and Road Safety Risks:

With the construction of additional houses, there will be a significant increase in the number of cars in the area. The junction leading onto the main road is already heavily congested, and adding more traffic will exacerbate the risk of accidents. This will make the roads even more unsafe for both pedestrians and drivers. Given the already strained road infrastructure, the added pressure from this development would make this situation dangerous, particularly for children and elderly residents.

In conclusion, I object to this development on the grounds of health and safety risks, loss of privacy, environmental damage, and the increased strain on local infrastructure. I urge the planning authority to reconsider and reject this proposal to ensure the safety and wellbeing of current residents and the preservation of the local environment.
