Type of comment: An objection	
Do you wish your comments to be published on the website anonymously?	Yes
I objected to the previous planning application and although the new planning application is for less houses being built the reason for my objection remains the same. When you have your meeting for this planning application please consider the following: If the application is approved when the two properties are being knocked down where will the large transport vehicles wait to remove building materials (it is on the main Leeds Huddersfield Road and this is busy with traffic). You can not block Stubley Farm Road as this is a single unmade Road for six dwelling that have no other access. The same has to be considered regarding the building of new houses. The land for the proposed building is full of wildlife and brings pleasure to the properties. In the summer months (June to August) just before dusk you can see bats flying overhead and around the houses. The previous "bat survey " was done in September when the bats don't fly round our properties. The roads in and around the area are busy with traffic congestion and the entrance for the new suggested properties are close to both Alma Road and Stubley Farm Road. The pavements are used by families walking to nursery and primary schools this should be taken into consideration with large construction vehicles.
