Some photos of the site on George Street. Constant burning from the mattress factory part and the end plot JS movers . The amazing silver Birch trees one of which the stump photo was illegally felled by the applicant this was all reported to Nick Hirst.

I object wholeheartedly to this planning application for a skip yard.

The history of this site which was scrubland, trees and a small car park. The site was illegally cleared by the applicant with a loss to wildlife and trees. Retrospective planning permission was then given. No one objected because the wrong address was on the application. Saplings was allowed to be removed on the application but full grow trees were removed all evidence was sent into Nick Hirst when he was in the tree department. Nothing done by the council. It's only Milnsbrdge so we shouldn't expect anything else. The mattress factory moved in and the hellish burning started. The massive fire on the photos that was seen from Golcar was them burning fifty mattresses. A few neighbours went down and had to call the fire brigade. I was constantly reporting the fires to kirklees council. The absolute disgraceful state of the site was horrendous for the people on Armitage road. Plastic mattress bags were blown up in trees rubbish all over. The road was constantly blocked by lorries. A silver Birch was cut down with no planning permission I reported it to Kirklees council but they said they couldn't contact the land owner. He is the applicant he should be prosecuted for this. Permission was then granted to fell the amazing silver Birch trees so they could use it to store old fridge freezers what an absolute travesty. Did they have a licence to store such white products. JB movers a skip and rubbish firm moved in and the serious burning started. Houses in Armitage road

got rats through this company. They eventually closed down. The burning from the mattress factory continued.

Planning permission for a skip yard should be denied because these people do not adhere to the law and have no interest in being a good neighbour to the people who live alongside this industrial area. The smell of smoke, the vermin, the horrible appearance of the site. The litter on George Street, plastic ties, plastic bags. The thought that they could own a skip yard dealing with rubbish is a nightmare for us on Armitage road. Please refuse this application or our lives will be even worse than now.

Armitage Rd, Milnsbridge, Huddersfield HD3 4JN, UK.
