<p>Our town is already over run by many newly built sites. As a very loyal and local resident, how can we fullfill the needs of the ever growing population of our town?</p> <p>Please explain how primary and secondary care will cope? They are already over run and some surgeries have had to close their registrations due to capacity and demand.</p> <p>I admire the new "health care hubs" which have been on social media, but we are still humans and not robots. I understand the technically of these, however i can visage these services being misused... as do A&E.</p> <p>Schools are already full to capacity. I really worry for our younger generations. Will the teachers have more support, more capacity? I really hope so.</p> <p>Who has been involved in this consultation so far please?</p> <p>I will look forward to your reply.</p>
