Hello,

As a rider to the attached email I would like to request that this application be decided by committee. There has been a fair amount of public representation about this development, but also there is a question about the access which I think would be best explored in a public meeting. And I cannot remember whether the size of this site is above or below the cut-off for automatic referral.

I have looked at some of the documents in the planning file and am a bit concerned that the developers do not say anything about how they would interact with existing residents once they are onsite during the preparation and building stages.

Thank you

Cllr Andrew Pinnock
Lib Dem Councillor for Cleckheaton Ward
