Do you wish your comments to be published on the website anonymously?	Yes
In addition to my previous objection as a local resident who lives near to this proposal I want to comment on the health impact to local residents. As I previously mentioned the dust created by this current business is impacting cars and gardens however the impact to us from an air pollution perspective needs to be given serious consideration. The location is so close to homes- and even schools aren't too far away that any additional dust/chemicals from this processing plant especially at the height of the proposed buildings into the surrounding air will surely add to the existing pollution levels. This is a small industrial estate very close to residential homes and the classification surely should not allow this type of business to operate.
