Hi, I wish to register an objection to this planned concrete plant. The noise starts too early in the morning and continues over the weekend as well, we like to sit in the garden but don't have any peace and quiet any more. The dirt, dust and debris that it creates covers our gardens, windows and cars, when we open our windows the windowsills have dirt on them from the existing plant.
I have allergies that have worsened over the last 4 years because of breathing in the air pollution from across the road where they are.
This is a residential area and a concrete production plant has no place in the middle of a built up housing area within close proximity to a school. The road is too narrow for big vehicles and just isn't equipped to deal with them.
Some of my neighbours are elderly and have health issues which would be impacted by this plant. My stepdad and
His health would be severely affected by more air pollution.
I am wholeheartedly against any further development of the site, I would welcome a decision to close it down completely.
Thank you for taking the time to read my concerns.
Regards, .
