<p>I strongly object to the proposed permanent concrete plant in the middle of a residential area due to its likely harmful impact on the character and amenity of the neighbourhood.</p> <p>A 30ft industrial facility is wholly out of keeping with the surrounding residential environment, and its scale, appearance, and function would be visually intrusive and inappropriate in this context. The plant's operations; such as cement storage, aggregate movement, and vehicle activity are known to generate significant dust, noise, and odour, all of which would severely affect local air quality and the living conditions of nearby residents, including children and vulnerable groups.</p> <p>The expected increase in heavy vehicle traffic also raises concerns around highway safety and further noise disturbance. This proposal is fundamentally incompatible with local planning policies aimed at protecting residential areas from industrial disruption.</p>
