This location is not suitable for the proposed facility. It is too close to residential properties that are already subjected to a lot of noise pollution from traffic and nearby businesses. Almondbury Bank already suffers from heavy traffic as it is without plant vehicles and machinery adding to it. There is also the concern of dust and other airborne materials being projected around the local area. All of this has the very likely effect of reducing nearby property value in an already challenging financial time. I hope the council can work with the business to find a more appropriate location that isn't so close to residential properties.
