A concrete plant is unsuitable on this site for the following reasons.

There are natural, historical woodlands surrounding this site which are home to wide diversity of plants , fauna and wild animals including bats, deer and owls.

There is a natural watercourse running alongside the site which may become polluted.

We need to focus on the conservation of the natural environment in this area. A factory of this type will cause noise, disturbance and odour.

It will have a derogatory impact on highway safety and traffic. This is a notoriously bad bend to drive in and out of and it is a narrow juncrion on approach. Residents parking on the road side makes access even more difficult.
