The granting of this application will negatively affect the area not only in its character but also in the valuation of houses in the area. There is a serious risk to the adjacent woodland and running water if a concrete plant is erected on the site and it has not been properly considered the effect of such a site being built. The area will suffer significant noise and air pollution should this planning application be granted and traffic will become unmanageable. It is already an area where there is heavy traffic and this application will only compound the issue. As a resident in the local area, I object.
